SERIES 6000

2 ½" WINDOW SYSTEM

The Series 6000 window system is one of All Weather's most energy efficient and highest rated window designs and the perfect exterior glazed solution for residential applications and buildings 12 stories and under.

Built to meet virtually any design and performance criteria for an aluminum window product, the commercially rated Series 6000 window's mitered and crimped corners provide exceptional strength and a contemporary aesthetic. The thermally strutted frame increases energy efficiency, improves condensations resistance and allows for split finish options for the interior and exterior providing maximum design flexibility.
